University of Arkansas – B.S. Biology

**Professional Activities:** Arkansas Pharmacists Association District 3 President, American Pharmacists Association, National Community Pharmacists Association

**Special Honors:** Charles M. West Leadership Award, NCPA Foundation Presidential Scholarship, Teva Pharmaceutical Scholarship, Doug Eoff Memorial Scholarship

### **Why do you want to serve on the APA Board of Directors?**

As a young pharmacist, I have a significant interest in the future of our profession. Understanding that there are significant threats to our role in the healthcare system inspires motivation to expand clinical opportunities and to ensure that stakeholders recognize the value we bring to the healthcare team. I understand the potential our profession has, the barriers limiting pharmacists from practicing at the full scope of our training, and am dedicated to seeing these opportunities become available for Arkansas' pharmacists.

My path in pharmacy has allowed me to gain a wide variety of insights into our profession. These experiences include the day to day challenges in community pharmacy, pursuits in pharmacy advocacy and legislation, practice model changes and implementation, networking with state and national leaders, association structure and mission. I love practicing pharmacy, and realized early in my education that I wanted to serve the profession in the greatest capacity I was able. I would love the opportunity to continue serving on the Arkansas Pharmacists Association Board of Directors.
