# WHOOPING COUGH

Are you putting little  
ones at risk?

## Get vaccinated by your local pharmacist.

According to the Centers for Disease Control, any adult who spends time with infants or young children should receive a whooping cough vaccination (Tdap). Protect little ones, and yourself. Get vaccinated today.

# AVOID THE FLU

Protect yourself  
and your family.  
Get vaccinated.

**Protect yourself. Get vaccinated by your local pharmacist.**

According to the Centers for Disease Control, people at high risk for developing flu-related complications are senior adults, young children and pregnant women. Protect yourself, and those close to you. Get vaccinated today.

# SHINGLES

They are  
painful,  
disfiguring,  
and  
**PREVENTABLE.**

**Protect yourself. Get vaccinated by your local pharmacist.**

According to the Centers for Disease Control, the only way to reduce the risk of developing shingles, and the long-term pain that can follow, is to get vaccinated. A vaccine for shingles is licensed for persons aged 60 years and older. Protect yourself, get vaccinated.
